The screenshot displays a web application titled "Library Management System - Role: STUDENT". The main heading is "Library Management System". On the left, the "Book Details" section contains input fields for "Book ID:", "Title:", "Author:", and "Issued To:", along with "Add", "Delete", "Issue", and "Return" buttons. On the right, the "Books Table" lists books with columns for "Book ID", "Title", and "Author". The table contains two entries: Book ID 103, Title "Operating Systems", Author "Abraham Silberschatz"; and Book ID 110, Title "Software Engineering", Author "Roger Pressman". At the bottom, a "Search by Title:" input field is followed by "Search", "View All", and "View Issued Books" buttons. The background is a blurred image of a library.

Book ID	Title	Author
103	Operating Systems	Abraham Silberschatz
110	Software Engineering	Roger Pressman
